

GUARDINI

Elite

A range of elegant and design baking moulds characterized by their high thickness.

A premium quality line designed by Guardini boasting a high non-stick performance and an excellent resistance to wear.

The moulds of the range Elite are made of thick steel (0,8mm) and have a non-stick double layer coating Whitford Eclipse which guarantees high non-stick and baking performance.

The manoeuvrable and wide side was specifically designed to ease the grasp.

The Guardini brand on the side of the mould signs the unique quality of this line.

The moulds of the range Elite are customized on the side with the logo Guardini.
