## Italian excellences: Guardini, the specialist of steel baking molds

12 giugno 2018

The story of **Guardini** began 70 years ago, when the family artisan workshop specialized in household items was founded in Turin. In the 70s the shop grew, specializing until becoming in the 80s specialist and leader in the production of steel baking molds in Italy.

Today the Guardini Spa boasts an annual turnover of 20 million, of which 60% in Italy and the remainder from exports, and maintains the leadership in the sector.

### The production

Almost 50,000 pieces are produced every day in Volpiano, shipped to over 40 countries. The company's philosophy has always been based on respect for the environment and for people, a path that was crowned in 2015 with the management centre built according to the newest quality standards and environmental sustainability.

The certifications obtained - the SA8000 in the field of Corporate Social Responsibility and the UNI EN ISO

9001:2008 - testify the results of the commitment in terms of technological investments and adaptation to the most stringent standards.

### The product

The quality of the materials - steel, latest generation non-stick coatings, quality food-grade silicone, but also proposals in baking and plastic paper - the variety of shapes, colors and situations of use, make the Guardini moulds and accessories indispensable allies for all cooking enthusiasts.

The latest novelty is the **Bon Ton** line of baking pans, 100% Made in Italy and with provençal colours, made in steel with Xylan single-layer non-stick coating, which guarantees perfect cooking. The line is available in pink, lilac, sage.
